Q1 2021

Building Sustainable Shareholder Value

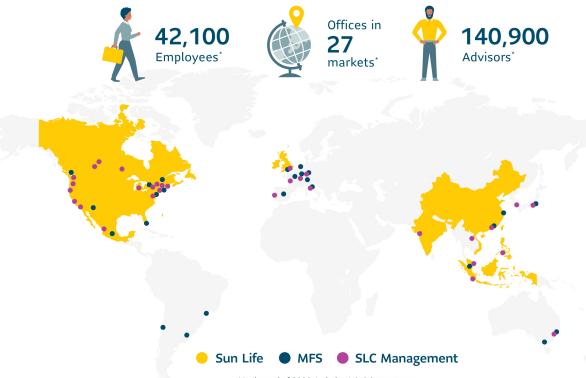

Life's brighter under the sun

A \$37.2 billion leading global financial services organization¹

Operating through a balanced and diversified model and focused on creating shareholder value now and in the future

*At the end of 2020. Includes Asia joint ventures. Map is as of March 31, 2021.

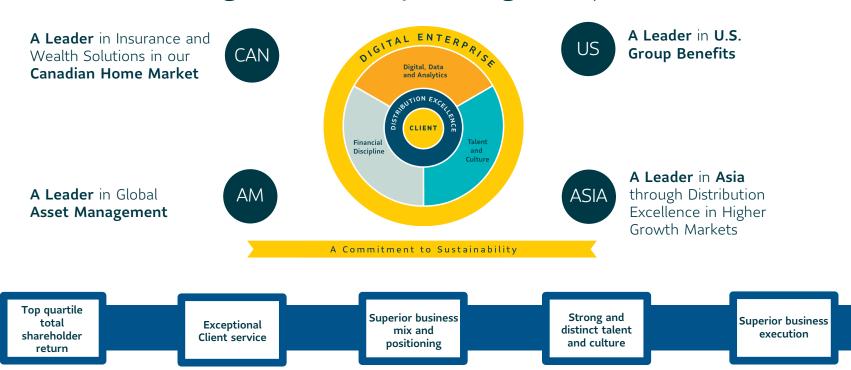

The Sun Life story

- A diversified business model, with four strong pillars that can each compete, win and grow in their respective markets and that leverage each other
- Bound together by a strong balance sheet and risk culture, including no U.S. Variable Annuity or U.S. Long-Term Care
- Building on momentum created by past organic investments
 and acquisitions that will help drive earnings growth
- Digital transformation that is deeply embedded throughout the organization
- Purpose-driven sustainability plan focused on what we know best to maximize our contribution to society

SUN LIFE • Q1 2021

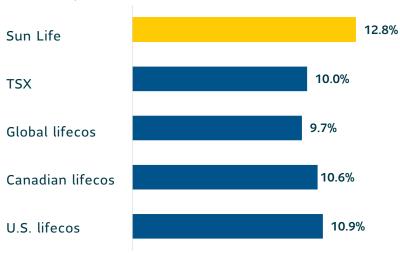

Executing on our ambition to be one of the best insurance and asset management companies globally

SUN LIFE • Q1 2021

Consistently delivering value to shareholders

5-year total shareholder return¹ March 31, 2021

Progress on medium-term objectives

Medium-term objective	Q1 2021
Underlying ROE ²	15.3%
Underlying EPS growth ² 8-10%	11%
Dividend payout ratio ^{2,3} 40-50%	38%

¹ Source: Bloomberg; Companies included in these peer groups are listed in the appendix

² Underlying ROE, EPS, and dividend payout ratio are non-IFRS financial measures. See "Use of Non-IFRS Financial Measures" and "Reconciliation of Select Net Income Measures" in the appendix

³ On March 13, 2020, OSF) set the expectation for all federally regulated financial institutions that dividend increases should be halted for the time being

Digital transformation deeply embedded throughout the organization

Building new digital models and a partnership ecosystem

- Asia digital sales channels, including affordable products through online marketplace Lazada
- Lumino Health and Sun Life GO in Canada
- New turnkey Absence capabilities through FullscopeRMS in U.S. Group Benefits
- Building digital expertise and ecosystems
- Making equity investments in early stage partners
- Investing in key technologies to drive global growth
- Exploring strategic collaborations with start-ups, accelerators and established networks
- Continuing to enhance connectivity into the benefits ecosystem, including APIs with key benefits and HR platforms

Using digital to be personal, predictive, and proactive

- Predictive models for advisor recruiting and Client retention in Asia
- Digital coach Ella in Canada
- Accelerated underwriting capabilities to reduce the need for lab tests for life insurance products in Canada
- Leverage Maxwell and predictive analytics that proactively nudge members to close coverage gaps in U.S.

Digitizing current interactions and processes

- Asia point of sale tools (needs, illustration, application, fulfillment) and new non-face-to-face sales capabilities for advisors
- Web and mobile functionality in Canada and Asia
- Expanded web and mobile capabilities and streamlined claims experience in the U.S.
- End-to-end virtual enrollment solutions with text and chat capabilities in the U.S.

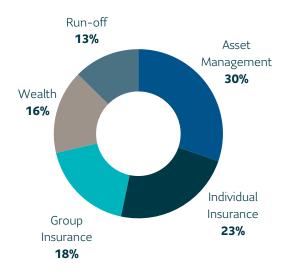

SUN LIFE

Balanced and diversified business

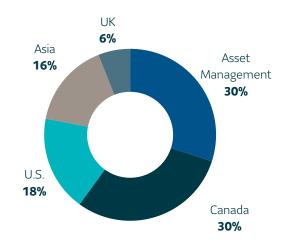

Business type diversification

Q1 2021 underlying net income^{1,2}

Business Group diversification

Q1 2021 underlying net income^{1,2}

Leveraging global trends

- Demographic shifts: Changing population including the aging of Baby Boomers and growth in wealth/financial needs of Millennials
- Digital transformation: Digital, data and analytics changing Client behaviours and expectations
- **Growing prosperity in Asia:** Growing demand for products and services as hundreds of millions of people move to the middle class
- Attention on health: Individuals and employers focused on physical, mental, and financial health and wellness
- Shift in nature of work: Rise in the gig economy creating opportunities to provide savings, benefits, and protection solutions
- Continued growth of alternatives: Economic and market conditions increasing investor demand for alternative asset classes

Shaping the industry and capitalizing on opportunities in Canada

Executing with financial discipline, and putting Clients at the centre

Making it easier for Clients to do business with us

Shaping the market as a leader in our Canadian home market

- Putting our Clients at the centre and creating proactive, predictive and personal contact throughout the Client journey
- Balancing top and bottom line growth through sustained expense discipline and prioritized investments
- Optimizing our portfolio of businesses through strategic actions to enhance our positioning
- Engaged employees driven by attracting, developing and retaining diverse top talent

- Creating a leading One Sun Life digital experience, digitizing key steps of our Client, Advisor and Sponsor journeys
- Expanding our reach with proactive and relevant connections through our digital coach, Ella
- Building Lumino Health Virtual Care capabilities for primary care to Group and Retail Clients, and paramedical virtual solutions to providers
 - Invested in and partnered with Dialogue to offer virtual care to our Clients¹ online and through a mobile app
 - Partnered with GoRendezvous and OnCall Health to enhance our virtual capabilities

- Leveraging our worksite advantage to enhance our Client offerings and develop into adjacent businesses for growth opportunities
- Expanding our health and well-being role, to own a space in the healthcare market and proactively build healthy workplaces
- Extending our leadership in the growing pension risk transfer market through our innovative **Defined Benefits Solutions** offering
- Accelerating our wealth presence through Sun Life Global Investments (SLGI) and Sun Life's Guaranteed Investment Funds (Sun GIF)

Deepening Client relationships in U.S. Group Benefits

Q1'21 highlights

- In April, we entered into an agreement to acquire Pinnacle Care International, Inc.¹, a leading U.S. health care navigation and medical intelligence provider
- After-tax profit margin for U.S. Group Benefits of 8.1%^{2,3}
- Recently launched Stitch in certain states, enabling members to buy coverage directly from Sun Life online or via mobile; helps protect part-time and gig workers, who typically aren't eligible for employee benefits
- Online disability claim submissions through SunWorks⁴ were up
 26% from Q4 2020
- More than 46,000 active employees on our Maxwell Health digital benefits platform, a 10% increase from Q4 2020

Our sustainability plan brings our Purpose to life

Focused on areas of expertise where we can have the most positive impact:

Financial Security

- Provide innovative financial products and services
- Proactive financial education
- Expand access to insurance and wealth products

Healthier Lives

- Offer products and tools to help Clients and employees live healthier lives
- Invest in community health
- Improve access to health and disability insurance

Sustainable Investing

- Manage capital with sustainability embedded in our investment processes
- Offer our Clients sustainable investing opportunities
- Invest our assets to encourage a low-carbon and more inclusive economy

Goals¹

 Help Clients take positive financial actions (working towards setting a target)

- Help Clients take positive health actions (working towards setting a target)
- Address regional health issues

- Rigorous incorporation of ESG considerations in all investment processes and decisions
- > \$20B in new sustainable investments from 2021-2025³

Building on our foundation as a **Trusted and Responsible Business**:

- Focus on meeting Client needs
- Build a talented and diverse workforce
- Advance diversity, equity and inclusion
- Mitigate climate change, build climate resilience and demonstrate environmental stewardship
- Safeguard data with robust security and privacy practices
- Identify, measure, manage, monitor and report risks
- Ensure strong governance and an ethical culture

Goals1

- Reduce GHG emissions intensity 30% by 2030⁴
- Carbon-neutral operations from 2021
- > 50% women in Vice-President (VP)+ roles globally and 25% underrepresented ethnicities in VP+ roles in North America by 2025

¹ See "Forward-looking Statements" in the appendix

² Mental health in Canada, healthcare costs in U.S., diabetes in Asia

³ Criteria for investments based on market standards

⁴ Based on tonnes of carbon dioxide equivalent per square foot, relative to a 2014 baseline

Strong sustainability achievements and recognition

- \$1B of insurance coverage and \$700M of savings **products** driven by nudges from Ella in 2020
- ~120.000 microinsurance policies issued since 2018

Healthier Lives

- \$38M committed to diabetes globally since 2012
- 20M ratings on 150K health-care providers on Lumino

Sustainable Investing

- \$60.1B sustainable investment AUM
- Sun Life and its asset management businesses scored "A" or higher on all PRI modules for asset classes that represent 10% or more of AUM

LICAT capital framework

Total ratio (SLF Inc.) (SLA Inc.) 141% 124%

Available capital

- Similar to MCCSR
- Retained earnings / common and preferred equity continue to be the largest components
- Main changes relate to adjustments and deductions to Tier 1 capital
 - (+) Accumulated OCI
 - (+) Value of Joint Ventures
 - (-) Non-temporary DTAs

Surplus allowance + eligible deposits

- Essentially the provisions for adverse deviation (PfADs) for non-economic risks
 - Insurance (mortality, morbidity, lapse) + interest
- Discounted at the rate used in the valuation of actuarial liabilities

Base solvency buffer

- Sum of aggregate capital required for:
 - credit, market, insurance, segregated fund and operational risk
- Total solvency requirements for a 1:200 year tail event, with some allowance for diversification
- Discounted on a basis prescribed by OSFI, then grossed up by a scalar of 1.05

In this presentation, Sun Life Financial Inc. ("SLF" or "SLF Inc."), its subsidiaries and, where applicable, its joint ventures and associates are referred to as "we", "us", "our", "Sun Life" and the "Company". Sun Life Assurance Company of Canada is referred to as "SLA".

Use of Non-IFRS Financial Measures

We report certain financial information using non-IFRS financial measures, as we believe that these measures provide information that is useful to investors in understanding our performance and facilitate a comparison of our quarterly and full year results from period to period. Non-IFRS financial measures do not have any standardized meaning and may not be comparable with similar measures used by other companies. For certain non-IFRS financial measures, there are no directly comparable amounts under IFRS. Non-IFRS financial measures should not be viewed in isolation from or as alternatives to measures of financial performance determined in accordance with IFRS. Additional information concerning non-IFRS financial measures are available in the Non-IFRS financial Measures section of the Earnings News Release. Non-IFRS Financial Measures and reconciliations are also included in our Q1 2021 MD&A under the heading M - Non-IFRS Financial Measures, our annual MD&A and the Supplementary Financial Information packages that are available on www.sunlife.com under Investors - Financial results & reports.

Non-IFRS measures

Underlying net income (loss) and financial measures based on underlying net income (loss), including underlying EPS or underlying ROE, are non-IFRS financial measures. Underlying net income (loss) removes from reported net income (loss) the impacts of the following items that create volatility in our results under IFRS and when removed assist in explaining our results from period to period:

- (a) market-related impacts that differ from our best estimate assumptions, which include: (i) impacts of returns in equity markets, net of hedging, for which our best estimate assumptions are approximately 2% per quarter. This also includes the impacts of the basis risk inherent in our hedging program, which is the difference between the return on underlying funds of products that provide benefit guarantees and the return on the derivative assets used to hedge those benefit guarantees; (ii) the impacts of changes in interest rates in the reporting period and on the value of derivative instruments used in our hedging programs including changes in credit and swap spreads, and any changes to the assumed fixed income reinvestment rates in determining the actuarial liabilities; and (iii) the impacts of changes in the fair value of investment properties in the reporting period:
- (b) assumption changes and management actions, which include: (i) the impacts of revisions to the methods and assumptions used in determining our liabilities for insurance contracts and investment contracts, and (ii) the impacts on insurance contracts and investment contracts of actions taken by management in the current reporting period, referred to as management actions which include, for example, changes in the prices of in-force products, new or revised reinsurance on in-force business, and material changes to investment policies for assets supporting our liabilities; and
- (c) other adjustments:
 - (i) certain hedges in Canada that do not qualify for hedge accounting this adjustment enhances the comparability of our net income from period to period, as it reduces volatility to the extent it will be offset over the duration of the hedges;
 - (ii) fair value adjustments on MFS's share-based payment awards that are settled with MFS's own shares and accounted for as liabilities and measured at fair value each reporting period until they are vested, exercised and repurchased this adjustment enhances the comparability of MFS's results with publicly traded asset managers in the United States;
 - (iii) acquisition, integration and restructuring costs (including impacts related to acquiring and integrating acquisitions); and
 - (iv) other items that are unusual or exceptional in nature.

All factors discussed in this presentation that impact our underlying net income are also applicable to reported net income.

All EPS measures in this presentation refer to fully diluted EPS, unless otherwise stated. As noted above, underlying EPS exclude the dilutive impact of convertible instruments.

Other non-IFRS financial measures that we use include reported ROE, administrative services only ("ASO") premium and deposits, mutual fund assets and sales, managed fund assets and sales, insurance and health sales, premiums and deposits, assets under management ("AUM"), assets under administration, pre-tax net operating profit margin for MFS, measures based on a currency adjusted basis, financial leverage ratio, dividend payout ratio, impact of foreign exchange, real estate market sensitivities, assumption changes and management actions, value of new business, after-tax profit margin for U.S. Group Benefits and effective income tax rate on an underlying net income basis.

Use of Names and Logos of Third Parties

Names and logos of third parties are used for identification purposes and do not imply any relationship with, or endorsement by, them. Third party trade-marks are the property of their respective owners.

Reconciliation of Select Net Income Measures	Q1'21	Q4'20	Q1'20
Common shareholders' reported net income (loss)	937	744	391
Less:			
Impact of certain hedges that do not qualify for hedge accounting	-	-	(1)
Fair value adjustments on share-based payment awards at MFS	(44)	(46)	10

Assumption changes and management actions	(4)	(42)	(53)
Common shareholders' underlying net income (loss)	850	862	770

Forward-Looking Statements

From time to time, the Company makes written or oral forward-looking statements within the meaning of certain securities laws, including the "safe harbour" provisions of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation. Forward-looking statements contained in this document include statements (i) relating to our sustainable investment commitments, (iii) relating to our anticipated acquisition of PinnacleCare, (iv) relating to our growth initiatives and other business objectives, (v) relating to the plans we have implemented in response to the COVID-19 pandemic and related economic conditions and their impact on the Company, (vi) that are predictive in nature or that depend upon or refer to future events or conditions, and (vii) that include words such as "achieve", "aim", "ambition", "ambition", "abelieve", "could", "strives", "goal", "initiatives", "intend", "may", "objectives", "outlook", "plan", "project", "seek", "should", "strategy", "strives", "target", "will", and similar expressions. Forward-looking statements include the information concerning our possible or assumed future results of operations. These statements represent our current expectations, estimates, and projections regarding future events and are not historical facts, and remain subject to change, particularly in light of the ongoing and developing COVID-19 pandemic and its impact on the global economy and its uncertain impact on our business.

Forward-looking statements are not a guarantee of future performance and involve risks and uncertainties that are difficult to predict. Future results and shareholder value may differ materially from those expressed in these forward-looking statements due to, among other factors, the impact of the COVID-19 pandemic and related economic conditions on our operations, liquidity, financial conditions or results and the matters set out in the Q1 2021 MD&A under the headings C - Profitability - 5 - income taxes, E - Financial Strength and H - Risk Management and in SLF Inc.'s 2020 AIF under the heading Risk Factors, and the factors detailed in SLF Inc.'s other filings with Canadian and U.S. securities regulators, which are available for review at www.sedar.com and www.sec.gov, respectively.

Risk Factors

Important risk factors that could cause our assumptions and estimates, and expectations to be inaccurate and our actual results or events to differ materially from those expressed in or implied by the forward-looking statements contained in this document, including our medium-term financial objectives, are set out below. The realization of our forward-looking statements, including our ability to meet our medium-term financial objectives, essentially depends on our business performance which, in turn, is subject to many risks, which have been further heightened with the current COVID-19 pandemic given the uncertainty of its duration and impact. Factors that could cause actual results to differ materially from expectations include, but are not limited to: market risks - related to the performance of equity markets; changes or volatility in interest rates or credit spreads or swap spreads; real estate investments; and fluctuations in foreign currency exchange rates; insurance risks - related to policyholder behaviour, mortality experience, morbidity experience, morbidity experience and longevity; product design and princing; the impact of higher-than-expected future expenses; and the availability, cost and effectiveness of reinsurance; credit risks - related to issuers strategies; changes in distribution channels or Client behaviour including risks relating to market conduct by intermediaries and agents; the impact of mergers, acquisitions, strategic investments and divestitures; the impact of competition; the performance of our investments and investment portfolios managed for Clients; changes in the legal or regulatory environment, including capital requirements; the environment and social, environmental laws and regulations; operational risks - related to policy experience of information system security and privacy, including cyber-attacks; our ability to attract and retain employees; legal, regulatory compliance and market conduct, including the impact of regulatory inquiries and investituation; operational ri

The Company does not undertake any obligation to update or revise its forward-looking statements to reflect events or circumstances after the date of this document or to reflect the occurrence of unanticipated events, except as required by law.

- 12 Insurance Authority of Hong Kong, Provisional Statistics on Hong Kong Long Term Insurance Business, based on Q4'20 YTD annualized first year premiums

Footnotes for slide 36

- ¹ Represents the respective change across all equity markets as at March 31, 2021 and December 31, 2020. Assumes that actual equity exposures consistently and precisely track the broader equity markets. Since in actual practice equity-related exposures generally differ from broad market indices (due to the impact of active management, basis risk, and other factors), realized sensitivities may differ significantly from those illustrated. Sensitivities include the impact of re-balancing equity hedges for dynamic hedging programs at 2% intervals (for 10% changes in equity markets) and at 5% intervals (for 10% changes in equity markets).
- ² The market risk sensitivities include the estimated mitigation impact of our hedging programs in effect as at March 31, 2021 and December 31, 2020, and include new business added and product changes implemented prior to such dates.
- ³ Net income and OCI sensitivities have been rounded to \$50 million. The sensitivities exclude the market impacts on the income from our joint ventures and associates, which we account for on an equity basis.
- ⁴The LICAT sensitivities illustrate the impact on Sun Life Assurance as at March 31, 2021 and December 31, 2020. The sensitivities assume that a scenario switch does not occur in the quarter. LICAT ratios are rounded to the nearest 0.5%.
- 5 Interest rate sensitivities assume a parallel shift in assumed interest rates across the entire yield curve as at March 31, 2021 and December 31, 2020 with no change to the Actuarial Standards Board ("ASB") promulgated Ultimate Reinvestment Rate ("URR"). Variations in realized yields based on factors such as different terms to maturity and geographies may result in realized sensitivities being significantly different from those illustrated. Sensitivities include the impact of re-balancing interest rate hedges for dynamic hedging programs at 10 basis point intervals (for 50 basis point changes in interest rates).
- ⁶The majority of interest rate sensitivity, after hedging, is attributed to individual insurance products. We also have interest rate sensitivity, after hedging, from our fixed annuity and segregated funds products.
- ⁷ In most instances, credit spreads are assumed to revert to long-term insurance contract liability assumptions generally over a five-year period.
- 8 Sensitivities have been rounded to the nearest \$25 million.
- ⁹The credit and swap spread sensitivities assume a parallel shift in the indicated spreads across the entire term structure. Variations in realized spread changes based on different terms to maturity, geographies, asset classes and derivative types, underlying interest rate movements, and ratings may result in realized sensitivities being significantly different from those provided. The credit spread sensitivity estimates exclude any credit spread impact that may arise in connection with asset positions held in segregated funds. Spread sensitivities are provided for the consolidated entity and may not be proportional across all reporting segments.
