Note to Readers: Restated Results on Adoption of IFRS 17 and IFRS 9

Sun Life Financial Inc. ('the Company', "Sun Life', "we', "our' and "us'') adopted IFRS 17 Insurance Contracts and IFRS 9 Financial Instruments ("IFRS 17" and "IFRS 9", respectively, and "IFRS 17/9", collectively) on January 1, 2023. For IFRS 9, we elected not to restate comparative period results, but will present comparative information on financial assets as if IFRS 9 were applicable during the 2022 comparative period ("classification overlay"). 2022 results have been restated for the adoption of IFRS 17 and the related IFRS 9 dissification overlay ("the new standards"). The restated results may not be fully representative of future remnings profile, as in 2022 we were not managing our asset and liability portfolios under the new standards. The majority of the actions taken to re-balance asset portfolios and transition asset-liability management to an IFRS 17 basis occurred in Q1'23. Accordingly, analysis based on 2022 comparative results may not necessarily be indicative of future ternads, and should be interpreted with this context. Using sensitivities to analyze the outlook for market risk and related impacts (e.g., interest rate sensitivities) will be more representative starting with the sensitivities disclosed for Q1'23 and onwards in section 1 - Risk Management of the Company's Management's Discussion and Analysis ("MD&A") for each respective more accurately reflect how the business is managed.

Basis of Presentation

All amounts in this document are presented in millions of Canadian dollars unless otherwise indicated. We prepare our unaudited Interim Consolidated Financial Statements using International Financial Reporting Standards ("IFRS"), the accounting requirements of the Office of the Superintendent of Financial Institutions ("OSFI") and in accordance with the International Accounting Standards ("IAS") 34 Interim Financial Reporting as issued and adopted by the International Accounting Standards Board ("IASB"). Reported net income (Ioss) refers to common shareholders' net income (Ioss) determined in accordance with IFRS.

This document and the Q1'25 MD&A contain certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. Examples include:

(1) Within the DOE: i) Net investment result and Other expenses of the Asset Management operating segment are combined with Fee Income to report the net contribution to earnings; ii) Income for fee-based businesses is reported net of the associated expenses; iii) Carried interest in SLC Management excludes the carried interest that Sun Life does not participate in economically, and nets the non-controlling interest ("NCI") against fee income and expenses of consolidated funds; iv) Net investment results include assets returns net of the crediting rate for investment contract liabilities and the unwinding of and changes in the discount rate for insurance contract liabilities; v) Earnings on surplus reflects net spread earned from investment strategies; and vi) Earnings attributable to the participating account are excluded.

(2) Within the CSM Movement Analysis: i) The impacts of insurance contracts issued is presented net of reinsurance; ii) Impact of new business is presented net of acquisition expense gain/loss; and iii) Certain methodology changes are presented as an impact of change in assumptions, whereas the Consolidated Financial Statement presentation is a contract modification

For more information on the DOE and CSM Movement Analysis, refer to the Non-IFRS Financial Measures section on the subsequent page of this document or section N -Non-IFRS Financial Measures of the Company's Q1'25 MD&A. For the reconciliations of the Statements of Operations to the DOE, refer to the DOE Reconciliations section in the appendix of this document.

Constant Currency Measures

Constant currency measures are calculated using the average currency and period end rates, as appropriate, in effect in the comparable period. Constant currency measures are non-IFRS financial measures. See section N - Non-IFRS Financial Measures, 3. Additional Non-IFRS Financial Measures of the Company's Q1'25 MD&A.

Rounding

Amounts in this document may be impacted by rounding.

Adjustments

Acquisition, Integration and Restructuring

In Q1'25 amounts include DentaQuest Group, Inc. ("DentaQuest") acquisition, integration, and restructuring costs of \$23 million post-tax and the unwinding of the discount for Other financial liabilities of \$14 million post-tax for BentallGreenOak ("BGO"), the Crescent Capital Group LP ("Crescent") and Advisors Asset Management Inc. ("AAM") (collectively, "SLC Management's affiliates¹)").

/ In Q4'24 amounts include DentaQuest integration costs of \$11 million post-tax and the unwinding of the discount for Other financial liabilities of \$13 million post-tax for SLC Management's affiliates.

In Q3²4 amounts include DentaQuest integration costs of \$11 million post-tax and the unwinding of the discount for Other financial liabilities of \$19 million post-tax for SLC Management's affiliates. Amounts also include the changes in estimated future payments for options to purchase remaining ownership interests of SLC Management affiliates in the amount of \$334 million post-tax.

In Q2'24 amounts include DentaQuest integration costs of \$28 million post-tax and the unwinding of the discount for Other financial liabilities of \$22 million post-tax for SLC Management's affiliates. Amounts also include a restructuring charge of \$108 million reflecting actions taken to improve productivity and drive earnings growth at the higher-end of our Medium-Term Financial Objectives. We expect these actions to result in annual savings of approximately \$200 million (pre-tax) by 2026.

In Q1'24 amounts include DentaQuest integration costs of \$29 million post-tax and the unwinding of the discount for Other financial liabilities of \$22 million post-tax for SLC Management's affiliates. Amounts also include a gain from the partial sale of our ownership interest in Aditya Birla Sun Life AMC Limited ("ABSLAMC") of \$84 million post-tax. As a result of the transaction, our ownership interest in ABSLAMC was reduced from 36.5% to 30.2%.

In Q4'23, amounts include DentaQuest integration costs of \$28 million post-tax and the unwinding of the discount for Other financial liabilities of \$24 million post-tax for SLC Management's affiliates.

In Q3'23, amounts include DentaQuest integration costs of \$31 million post-tax and the unwinding of the discount for Other financial liabilities of \$21 million post-tax for SLC Management's affiliates. Amounts also include the changes in estimated future payments for acquisition-related contingent considerations and options to purchase remaining ownership interests of SLC Management affiliates in the amount of \$42 million post-tax.

In Q2'23, amounts include DentaQuest integration costs of \$32 million post-tax and the unwinding of the discount for Other financial liabilities of \$21 million post-tax for SLC Management's affiliates. Amounts also include a \$19 million post-tax gain resulting from the completion of the sale of SLF of Canada UK Limited to Phoenix Group Holdings plc ("Phoenix Group") on April 3, 2023 ("the sale of Sun Life UK"). After the sale, the remaining UK payout annuities business has moved to the U.S. business segment and is combined with U.S. In-force Management.

In Q1'23, amounts include DentaQuest integration costs of \$29 million post-tax and AAM acquisition costs of \$16M post-tax, as well as the unwinding of the discount for Other financial liabilities of \$20 million post-tax for SLC Management's affiliates. Amounts also include Canada's \$65 million post-tax gain on sale of its sponsored markets business to Canadian Premier Life Insurance Company (re-branded to Securian Canada), which was recognized in Other income.

Other

Q4/24: Amounts include lower tax exempt investment income of \$234 million in Corporate and a non-recurring provision in U.S. Dental.

Q2'24: Amounts include a tax adjustment related to Pillar Two legislation of \$15 million

Q1'24: Amounts include a gain relating to the early termination of a distribution agreement in Asset Management.

Q4/23: On December 27, 2023, Bermuda enacted its Corporate Income Tax Act 2023, which will apply a 15% income tax beginning on January 1, 2025 ("Bermuda Corporate Income Tax Change"). The enacted legislation provides an economic transition adjustment that aligns an entity's starting point for the tax regime more closely with its economic position prior to the application of the Corporate Income Tax 2023. The benefit of this economic transition adjustment that aligns an entity's starting point for the tax regime more closely with its reported net income increased by \$51 million in the fourth quarter, reflected in Other adjustments.

¹⁾ For the periods Q3'24 and prior, includes InfraRed Capital Partners ("InfraRed").

Non-IFRS Financial Measures

Sun Life prepares annual and interim financial statements using IFRS. We report certain financial information that are not based on IFRS ("non-IFRS financial measures"), as we believe that these measures provide information that is useful to investors in understanding our performance and facilitate a comparison of our quarterly and full year results from the period. These mon-IFRS financial measures do not have any standardized meaning and may not be comparable with similar measures used by other companies. For certain non-IFRS financial measures should not be viewed in isolation from or as alternatives to measures of financial measures of financial measures and if applicable, reconciliations to the closest IFRS measures are available in the Company's annual and interim MD&A and the Supplementary Financial Information packages on <u>www.sunlife.com</u> under Investors – Financial results and reports.

Underlying Net Income

Underlying net income is a non-IFRS financial measure that assists in understanding Sun Life's business performance by making certain adjustments to IFRS income. Underlying net income, along with common shareholders' net income ("Reported net income"), is used as a basis for management planning, and is also a key measure in our employee incentive compensation programs. This measure reflects management's view of the underlying businesses performance of the Company and Iong-term earnings potential. For example, due to the longer term nature of our individual protection businesses, market movements related to interest rates, equity markets and investment properties can have a significant impact on Reported net income interest rates, the fixed income investment is held to maturity.

Underlying net income removes the impact of the following items from reported net income

- Market-related impacts reflecting the after-tax difference in actual versus expected market movements, including:
- Net interest impact from risk-free rate, credit spread, swap spread movements, and other impacts, reflecting accounting mismatches between assets and liabilities: i. a. Differences arising from fair value changes⁽¹⁾ of fixed income assets (including derivatives) measured at Fair value through profit or loss ("FVTPL") supporting insurance contracts, compared to fair value changes of the liabilities⁽²⁾
 - b. Fair value changes of fixed income assets (including derivatives) measured at FVTPL supporting our investment contract liability and surplus portfolios⁽³⁾; and
 - c. Tax-exempt investment income⁽⁴⁾ above or below expected long-term tax savings relating to our Canadian multi-national insurance operations.
- ii. Non-fixed income investments, where the weighted average expected return is approximately 2% per quarter, including:
- a. Equity investments (including derivatives) supporting insurance contracts and surplus portfolios; and
- b. Investment properties supporting insurance contracts and surplus portfolios.
- Assumption changes and management actions ("ACMA") captures the impact of method and assumption changes, and management actions on insurance and reinsurance contracts.

Other adjustments:

- i. MFS⁽⁵⁾ shares owned by management this adjustment removes the change in fair value and other activity related to MFS common shares owned by management;
- ii. Acquisition, integration, and restructuring expense and income related to acquisition or disposal of a business. Also includes expenses related to restructuring activities;
- Intangible asset amortization removes the amortization expense associated with finite life intangible assets arising from acquisitions or business combinations excluding amortization of software and distribution agreements; and iii.
- Other represents items that are unusual or exceptional in nature which management believes are not representative of the long-term performance of the Company

Refer to Net Income Reconciliations - Pre-Tax and Post-Tax in the appendix of this document for the non-underlying adjustments from underlying net income to reported net income, as well as section N - Non-IFRS Financial Measures, 2. Underlying Net Income and Underlying EPS and 4. Reconciliations of Select Non-IFRS Financial Measures of the Company's Q1'25 MD&A.

For more information about business types in Sun Life's operating segments/business groups, see the General Information section of this document and section A - How We Report Our Results under the heading Underlying Net Income by Business Types of the Company's Q1'25 MD&A.

Underlying Diluted Earnings per Share ("EPS")

This measure is used in comparing the profitability across multiple periods and is calculated by dividing Underlying net income by weighted average common shares outstanding for diluted EPS, excluding the dilutive impact of convertible instruments. For additional information about the Underlying net income, see above. For additional information about the composition of the EPS, please refer to Note 13 of our O125 Consolidated Financial Statements. For additional information about the Sun Life ExchangEable Capital Securities ("SLEECS"), please refer to Note 12 of our 2024 Annual Consolidated Financial Statements.

Drivers of Earnings ("DOE")

The DOE analysis provides additional detail on the sources of earnings, primarily for protection and health businesses, and explains the actual results compared to the longer term expectations. The DOE is presented on a reported and underlying common shareholders' basis. Within the net insurance service result, the underlying DOE provides detail on expected insurance earnings, impact of new insurance business and experience gains (losses). Within the net investment result, the underlying DOE provides detail on expected insurance earnings on surplus, and joint ventures & other. For more information on the DOE, see Understanding the Drivers of Earnings in the appendix of this document and section N - Non-IFRS Financial Measures, 3. Additional Non-IFRS Financial Measures under the heading Driver of Earnings of the Company's Q125 MD&A. Refer to the Basis of Presentation section on page ii of this document for more information nounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements, and the reconciliations of the Statements of Operations to the DOE in the DOE Reconciliations section in the appendix of this document.

Contractual Service Margin ("CSM")

CSM represents a source of stored value for future insurance profits and qualifies as available capital for LICAT⁽⁶⁾ purposes. CSM is a component of insurance contract liabilities. Refer to the Basis of Presentation section on page ii of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements.

Organic CSM Movement is comprised of the Impact of new insurance business, Expected movements from asset returns & locked-in rates, Insurance experience gains/losses, and CSM recognized for services provided.

Impact of new insurance business on CSM, also referred to as "new business CSM", represents growth from sales activity in the period, including individual protection sales (excluding joint ventures), and defined benefit solutions and segregated fund wealth sales in Canada. New business CSM is presented net of acquisition expense gain/loss.

Expected movements from asset returns & locked-in rates applies to variable fee approach ("VFA") and general measurement approach ("GMA") contracts. For VFA contracts, this component of the CSM movement analysis is comprised of two factors: (i) the expected return on underlying assets and (ii) the measurement of financial guarantees. The difference between actual and expected results are reported as the impact of markets. For GMA contracts, this component of the CSM includes the accretion of the CSM balance at locked-in rates, which refer to the term structure associated with locked-in discount rates, set when the insurance contract was sold or on transition to IFRS 17. Average locked-in rates increase with the passage of time on in-force business and new business added at current rates.

Impact of markets & other includes the difference between actual and expected movement for VFA contracts for: (i) the return on underlying assets and (ii) the measurement of financial guarantees. Also includes other amounts excluded from Organic CSM Movement.

Insurance experience gains/losses represents the current period impacts of insurance experience, resulting in a change in future cash flows that adjust CSM.

Impact of change in assumptions represents the future period impacts of changes in fulfilment cash flows that adjust CSM

(1) For fixed income assets, Underlying net income includes credit experience from rating changes on assets measured at FVTPL, and the Expected credit loss ("ECL") impact for assets measured at Fair value through other comprehensive income ("FVOCI").

Underlying net income is based on observable discount curves and exchange rates at the beginning of the period.

(3) Underlying net income for earnings on surplus includes realized gains (losses) on fixed income assets classified as FVOCI.

(4) Q4'24 balances are isolated in Other within Other adjustments.

(5) MFS Investment Management ("MFS").

(6) Life Insurance Capital Adequacy Test ("LICAT") ratio. Our LICAT ratios are calculated in accordance with the OSFI-mandated guideline, Life Insurance Capital Adequacy Test

⁽¹⁾ The DOE analysis and Underlying Net Income by Business Type contain non-IFRS financial measures. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures of the Company's Q125 MD&A. Refer to the Basis of Presentation section on page i of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements.
⁽²⁾ Effective Q422, proferedor domunts in the DOE related to Expenses - other for health, asset management and wealth businesses in Canada have been restated to improve comparability of data over time and with other business units, related amounts in the OFF related accordingly. In addition, effective Q323, the Other Fee Income line for the U.S. business segment has been refined to include Employee Benefits and Health and Risk Solutions fee income net of corresponding expenses in order to align with the presentation of the Derlat business in this line. We have updated prior priorid amounts to reflect this refinement.
⁽³⁾ Expenses - other removes non-underlying Other adjustments, including MFS shares owned by management, Acquisition, integration and restructuring, and Intangible asset amortization. Certain Other adjustments - other may also be removed from Other expenses.
⁽⁴⁾ Dividends on preferred shares, distributions on other equily instruments, and non-controlling interests ("Olidends, distributions, NCI").

(5) Refer to the Notes page ii, Adjustments - Acquisition, Integration and Restructuring and Adjustments - other for additional details.

(9) Q4/24 amounts include an impairment charge of \$186 million on an intangible asset related to bancassurance in Vietnam reflecting updates resulting from changes in regulatory and macro-economic factors.

⁽⁷⁾ Effective Q125 Regional Office in Asia was moved from the Corporate expenses & other business type to the Individual - Protection business type, reflecting a reporting refinement. Prior period amounts reflect current presentation.

For the Quarter Ended - Q1 2024

⁽¹⁾ The DOE analysis and Underlying Net Income by Business Type contain non-IFRS financial measures. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures Glossary in the appendix of this document, or section N. Non-IFRS Financial Measures of the Company's 0125 MD&A. Refer to the Basis of Presentation section on page ii of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. ⁽¹⁾ Effective Q423, prior period amounts in the DOE related to Expenses - other for health, asset management and wealth businesses in Canada have been restated to improve comparability of data over time and with other business units; related amounts in other fee income and Experience gains (losses) have also been restated accordingly. In addition, effective 0232, the Other Fee Income line for the U.S. business segment has been reflect to include Employee Benefits and Health and Risk Solutions fee income and this reflective this reflement. ⁽²⁾ Expenses - other removes non-underlying Other adjustments, including MFS shares owned by management, Acquisition, integration and restructuring, and Intangible asset amortization. Certain Other adjustments - other may also be removed from Other expenses.

expenses

⁽⁴⁾ Refer to the Notes page ii, Adjustments - Acquisition, Integration and Restructuring and Adjustments - other for additional details.

⁽¹⁾ Effective Q2'23, the UK payout annuities business was moved from the Corporate business segment to the U.S. business segment and combined with U.S. In-force Management. In Q3'23, the Run-off Reinsurance business was also moved from Corporate to U.S. In-force Management.

(P) Represents a non-IFRS financial measure. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures Glossary in the appendix of this document, or section N - Non-IFRS Financial Measures of the Company's Q125 MD&A. ⁽³⁾ Effective Q4'23, prior period amounts related to sales in the U.S. Dental segment have been restated to reflect new information.

⁽¹⁾ The DOE analysis and Underlying Net Income by Business Type contain non-IFRS financial measures. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures Glossary in the appendix of this document, or section N - Non-IFRS Financial Measures of the Company's Q125 MD&A. ⁽²⁾ Effective Q323, the Other Fee Income line for the U.S. business segment has been refined to include Employee Benefits and Health and Risk Solutions fee income net of corresponding expenses in order to align with the presentation of the Dental business in this line. ⁽³⁾ Expenses - other removes the non-underlying Other adjustments, including Acquisition, integration and restructuring, and Intangible asset amortization. Certain Other adjustments - other may also be an adjustment from Other expenses.

⁽⁴⁾ Refer to the Notes page ii, Adjustments - Acquisition, Integration and Restructuring and Adjustments - other for additional details.

⁽¹⁾ Cartain measures in the CSM Movement Analysis are non-IRS financial measures. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures Glossary in the appendix of this document, or section N - Non-IFRS Financial Measures of the Company's Q125 MDRA for more information.
⁽²⁾ In Q223, we completed the sale of Sun Life UK, and after the sale, the remaining UK payout annuities business was moved from the Corporate business segment to the U.S. business segment and combined with U.S. In-force Management. In Q323, the Run-off Reinsurance business may move for additional delais.

⁽¹⁾ Corporate is comprised of our Corporate Support operations, which consist of the expenses, debt charges, investment income, capital and other items not allocated to Sun Life's other business segments, as well as the Company's UK, Run-off Reinsurance and Reinsurance Clearinghouse businesses until 01/23. In 02/23, we completed the sale of the Sun Life UK, and the remaining UK payout annuities business was also moved to the U.S. business segment and combined with U.S. In-force Management. In 03/23, the Run-off Reinsurance and Reinsurance Clearinghouse business sets until 01/23. In 02/23, we completed the sale of the Sun Life UK, and the remaining UK payout annuities business was also moved to the U.S. In-force Management. In one, operating expenses and commissions, and interest expenses relating to activities that cross business groups.

General Information

Asset Management	Canada	U.S.	Asia	Corporate
Our Asset Management business group is comprised of MFS and SLC Management. MFS is a premier global asset manager offering a comprehensive selection of financial products and services that deliver superior value, actively managing assets for retail and institutional investors around the world. SLC Management is a global asset manager with capabilities across fixed income and alternative asset classes including public and private fixed income, real estate equity and debt, and infrastructure equity. Asset Management has two business units - MFS and SLC Management.	Our Canada business segment is a leading provider of health, asset management and wealth, and protection solutions, providing products and services that deliver value to over 12 million Canadians. We are a leading provider of benefits and pensions in the workplace, and offer a wide range of products to individuals via retail channels. We are focused on helping Canadians achieve lifetime financial security and live healthier lives. Canada has three business units - Individual Insurance & Wealth, Sun Life Health and Group Retirement Services.	Dur U.S. business segment is one of the largest providers of employee and government benefits in the U.S. serving approximately 50 million. Americans: We offer dental and vision, medical stop-loss, supplemental health, disability, and life insurance benefits through employers, industry patners and government programs such as Medicaid, Medicare Advantage, and the Children's Health Insurance Program ('CHIP'). Services include absence management, locental care, and healthcare navigation. In addition, our U.S. business manages and in-force block of approximately 200,000 nctivitual life insurance and nunly present and a solution of nun-of reinsurance. U.S. has three business units - Group Benefits, Dental and In-force Management.	We are well-positioned in growing markets in Asia, with operations in key ASEN markets, Hong Kong, Joint Ventures and High Net Worth (THWV) delivering value to over 30 million Clients. These markets account for approximately 67% of Asia 50 DP with high potential for future growth. We are a provider of individual life and headth neurance that delivers Client value, a provider in select markets of asset management and group retirement products and services, and among the global leaders in providing life insurance solutions to HNW Clients. Asia has five business unite - ASEAN, Hong Kong, Joint Ventures, High Net Worth and Regional Office.	Corporate includes the results of our Corporate includes the results of our Corporate Support operations: On April 1, 2023, Sun Life UK was sold to Phoenix Group Holdings pic and our retained economic interest in the payout annulities business is part of the U.S. business segment. Corporate Support operations consist of the certain expenses, debt charges, investment income, capital and other items, pertaining to monitoring and oversight of enterprise activities and Corporate treatenary functions, which are not allocated to business segments.

Underlying net income by Business Types

- Sun Life has a diversified mix of businesses and our earnings by business type supports the analysis of our results:

 Asset management & wealth: Sun Life's asset management & wealth businesses generate fee income and/or spread on investment products.
 Group Health & Protection: Group businesses provide health and protection benefits to employer and government plan members. The products generally have shorter-term coverage periods, and more frequent repricing. The revenues are driven by premiums for coverage provided as well as fee-based earnings (i.e., Administrative Services Only plans, and dental fees).
 Individual Protection: Generally individual protection businesses provided as well as fee-based earnings (i.e., Administrative Services Only plans, and dental fees).
 Individual Protection: Generally individual protection businesses provided as well as fee-based earnings (i.e., Administrative Services Only plans, and dental fees).

The following provides an overview of the business types in Sun Life's business segments/business groups:

			Business Segments		
Business Types	Asset Management	Canada	US	Asia	Corporate
Asset management & wealth	MFS Investment Management SLC Management	Individual Wealth Group Retirement Services		Asset management & Individual wealth ¹⁾	
Group - Health & Protection		Sun Life Health	Group Benefits ²⁾ Dental		
ndividual - Protection		Individual Insurance	In-force Management	Individual protection ³⁾ Regional Office ⁴⁾	
Corporate expenses & other					Corporate Support

¹⁰ Includes asset management & wealth businesses in the Philippines, Hong Kong, Johna and India.
 ²¹ Includes Employee Benefits, as well as Health and Risk Solutions (medical stop-loss).
 ³¹ Includes individual protection businesses in ASEAN, Hong Kong, Joint Ventures and High-Net-Worth. Group businesses in Asia have been included with Individual – Protection.
 ⁴¹ Effective Q125, Regional Office in Asia was moved from the Corporate expenses & other business type to the Individual – Protection business type, reflecting a reporting refinement.

⁽¹⁾Includes Investment income (loss) and performance fees related to ur seed investments and Market-related impacts. Gains or loss of cartain non-seed hedges are reported under investment income or loss under IFRS, whereas we present these under Acquisition, integration and restructuring in SLC Management's Supplementary Income Statement. For more information about this adjustment made to arrive at a non-FRS financial measure, refer to the Non-FRS Financial Measures page 1 of this document and section N - Non-IFRS Financial Measures and the Company's Q125 MOBA. ⁽²⁾Crescent cartain timest that Sun Life does not participate in economically is presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. On a net basis, the NCI portion of the carried interest is netted against both Fee income of consolidated financial sequences for consolidated funds. Refer to the Basis of Presentation section on page ii of this document for more information. ⁽³⁾We have reclassified the income and related expenses for certain property management agreements to Compensation – fee-related to provide more accurate metrics on our fee-related business. ⁽⁴⁾Non-inderlying net income adjustments are shown pre-tax and before NCI in this reconciliation, compared to posi-tax and posi-NCI in SLC Management's Supplementary Income Statement. Other - expenses includes Intangible asset amortization and Other non-underlying adjustments.

⁽¹⁾ Represents the number of common shares treated as outstanding in the calculation of diluted EPS, based on the assumed conversion of the convertible securities. No adjustment is reflected for periods in which the convertible securities conversion would have caused an anti-dilutive result. ⁽²⁾ The convertible securities contain features which enable the holders to convert these securities into preferred shares of Sun Life Assurance Company of Canada. Following this conversion, the Company has the option to settle the preferred shares with cash prior to the convertible securities contain features which enable the holders to convert the assumption that convertible instruments are converted and the useful adjusted profession to common shares of Sun Life. Under IFRS, diluted EPS are calculated by adjusting income and the weighted average number of shares for the effects of all dilutive potential common shares under the assumption that convertible instruments are converted and that outstanding epitons are exercised.

(4) Q4'24 amounts include an impairment charge of \$186 million on an intangible asset related to bancassurance in Vietnam reflecting updates resulting from changes in regulatory and macro-economic factors.

⁽⁶⁾ Represents after-tax interest expense on convertible securities converted into common shares that is added to net income as the convertible securities are assumed to be converted at the beginning of each reporting period in the calculation of diluted EPS.

DOE RECONCILIATION - TOTAL COMPANY

This page details the reconciling items (rows 12 to 21) between the Underlying DOE (rows 1 to 11) to the Adjusted Common Shareholders' View (also referred to as the Reported DOE, rows 23 to 34). This page also further details the reconciling items and adjustments (rows 35 to 45) between the Reported DOE (rows 23 to 34) and the Reported View - Income Statement (also referred to as the Statements of Operations in our Consolidated Financial Statements, rows 46 to 55).

(1) The DOE analysis contains non-IFRS financial measures. Refer to the Basis of Presentation section on page ii of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures Glossary in the appendix of this document, or section N - Non-IFRS Financial Measures of the Company's Q125 MD&A for more information.

⁽²⁾Effective Q423, the impact of ACMA is shown in one-line. Previously, the impact of ACMA was embedded within two lines: Net insurance service result and Net investment result. We have updated prior period amounts for this change in presentation.

DOE RECONCILIATION - U.S.

This page details the reconciling items (rows 10 to 15) between the Underlying DOE (rows 1 to 9) to the Adjusted Common Shareholders' View (also referred to as the Reported DOE, rows 17 to 26). This page also further details the reconciling items and adjustments (rows 27 to 36) between the Reported DOE (rows 17 to 26) and the Reported View - Income Statement (also referred to as the Statements of Operations in our Consolidated Financial Statements, rows 37 to 45).

⁽¹⁾ The DOE analysis contains non-IFRS financial measures. Refer to the Basis of Presentation section on page ii of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. Refer to the Non-IFRS Financial Measures section on page 1 and the Additional Non-IFRS Financial Measures of the Company's 0.725 MDA for more information. ⁽¹⁾ "Electric 0232, the impact of ADAM was meeted with him to lines: Net impactor ensut and Net immediate westment result. We we updated price priori damounts for this change in presentation.

Additional Non-IFRS Financial Measures Glossary

In addition to the non-IFRS financial measures described on page 1 of this document (Underlying net income, Underlying Diluted EPS, the DOE analysis, and the CSM Movement Analysis), Sun Life also uses the following non-IFRS financial measures:

(1) After-tax profit margin for U.S. Group Benefits. This ratio expresses U.S. Group Benefits underlying net income as a percentage of net premiums. It assists in explaining our results from period to period and measures profitability. This ratio is calculated by dividing underlying net income by net premiums for the trailing four quarters. There is no directly comparable IFRS measure. Refer to U.S. Group Benefits Reported Net Income to Underlying Net Income section in the appendix of this document.

(2) Assets under administration (AUA). AUA represents Client assets for which Sun Life provides administrative services. In Canada, AUA includes mutual fund dealers' assets in Individual Wealth and administrative services assets in Group Retirement Services. In Asia, AUA includes administrative services assets in China and Hong Kong. In SLC Management, AUA includes assets distributed mostly by SLC Management's affiliate, Advisors Asset Management Inc. There is no standardized financial measure under IFRS.

(3) Assets under management ("AUM"). AUM is a non-IFRS financial measure that indicates the size of the Company's assets across asset management, wealth and insurance. There is no standardized financial measure under IFRS. In addition to the most directly comparable IFRS measures, which are the balance of General funds and Segregated funds on our Statements of Financial Position, AUM also includes Third-party AUM and Consolidation adjustments.

(4) Assets under management and administration ("AUMA") consists of both AUA and AUM, as defined above, and there is no standardized financial measure under IFRS.

(5) AUM not yet earning fees. This measure represents the committed uninvested capital portion of total AUM not currently earning management fees. The amount depends on the specific terms and conditions of each fund. There is no directly comparable IFRS measure.

(6) Capital raising. This measure consists of increases in SLC Management's commitments from fund raising activities for all real estate, infrastructure and alternative credit Clients excluding leverage. Investment-grade fixed income capital raising consists of sales made to new Clients. There is no directly comparable IFRS measure.

(7) Constant currency. We remove the impacts of foreign exchange translation from certain IFRS and non-IFRS financial measures to assist in comparing our results from period to period. The impacts of foreign exchange translation are approximated by using the foreign exchange rates in effect during the comparative period, using the average or period end foreign exchange rates, as appropriate. Constant currency reconciliation for Reported net income and Reported earnings per share - diluted are as follows:

Q1'25 Reported net income at Q1'24 constant dollar	\$ 887 million	Q1'25 Reported EPS at Q1'24 constant dollar	\$ 1.55
Currency impact relative to Q1'24 exchange rates	\$ 41 million	Currency impact per share relative to Q1'24 exchange rates	\$ 0.07
Q1'25 Reported net income - actual	\$ 928 million	Q1'25 Reported EPS - actual	\$ 1.62

(8) Deployment. This measure represents the amount of capital that has been invested in the period, including leverage where applicable. Deployment also includes capital committed in infrastructure deals to be invested in specific assets. There is no directly comparable IFRS measure.

(9) Dividend yield. This measure is calculated as the annualized dividend per share in the quarter over the daily average share price in the quarter. The annual dividend calculation represents the dividend paid in the year over the daily average share price for the year.

(10) Fee earning AUM (FE AUM). FE AUM consists of assets managed by SLC Management, which are beneficially owned by Clients, on which we earn management fees for providing investment management, property management or advisory-related services. There is no directly comparable IFRS measure.

(11) Financial Leverage ratio. This ratio is an indicator of the Company's balance sheet strength measured by its proportion of capital qualifying debt in accordance with OSFI guidelines. This is calculated as the ratio of total debt plus preferred shares and other equity instruments to total capital including the contractual service margin net of taxes, where debt consists of all capital-qualifying debt securities. Capital-qualifying debt securities consist of subordinated debt and innovative capital instruments. The CSM is included net of taxes because debts are repaid and serviced from available after-tax funds.

(12) Impacts of foreign exchange translation. To assist in comparing our results from period-to-period, the favourable or unfavourable impacts of foreign exchange translation are approximated using the foreign exchange rates, in effect during the comparative period, for several IFRS and Non-IFRS financial measures using the average or period end foreign exchange rates, as appropriate. Items impacting a reporting period, such as Total revenue, Expenses, and Reported net income (loss) in our Consolidated Statements of Operations, as well as Underlying net income (loss), and Sales, are translated into Canadian dollars using average exchange rates for the appropriate daily, monthly, or quarterly period. For Assets and Liabilities in our Consolidated Statements of Financial Position, as well as the AUM, and certain components of the DOE disclosure, period-end rates are used for currency translation purposes.

(13) Net Premiums. This measure provides a better understanding of the growth in the group businesses in Canada and the U.S. Net premiums include gross insurance and annuity premiums adjusted for unearned premiums, experience-rated refund premiums, premium taxes and associated ceded amounts.

(14) Pre-tax fee-related earnings margin. This ratio is a measure of SLC Management's profitability in relation to funds that earn recurring fee revenues, while excluding investment income and performance fees. The ratio is calculated by dividing fee-related earnings by fee-related revenues and is based on the last twelve months. There is no directly comparable IFRS measure.

(15) Pre-tax net operating margin. This ratio is a measure of profitability and there is no directly comparable IFRS measure. For MFS, this ratio is calculated by excluding MFS shares owned by management, compensation-related equity plan adjustments and certain commission expenses that are offsetting. These commission expenses are excluded in order to neutralize the impact these items have on the pre-tax net operating margin and have no impact on the profitability of MFS. For SLC Management, the ratio is calculated by dividing the total operating income by fee-related revenue plus investment income (loss) and performance fees, and is based on the last twelve months.

(16) Pre-tax gross operating margin for MFS. This ratio is a measure of profitability, which excludes MFS shares owned by management and compensation-related equity plan adjustments. There is no directly comparable IFRS measure.

(17) Reported Dividend payout ratio. This is the ratio of dividends paid per share to diluted reported EPS for the period.

(18) Return on Equity ("ROE"). IFRS does not prescribe the calculation of ROE and therefore a comparable measure under IFRS is not available. To determine reported ROE and underlying ROE, respectively, reported net income (loss) and underlying net income (loss) is divided by the total weighted average common shareholders' equity for the period. The ROE provides an indication of the overall profitability of the Company. The quarterly ROE is annualized.

for the period. The ROE provides an indication of the overall profitability of the Company. The quarterly ROE is annualized. (19) Sales and flows. Asset Management gross flows includes funds from retail and institutional Clients; SLC Management gross flows include capital raising, such as uncalled capital commitments and fund leverage. In Canada, asset management gross flows wealth sales consist of sales in Group Retirement Services (excluding retained sales) and Individual Wealth; group - health & protection sales consist of workplace benefits sold by Sun Life Health; and individual - protection sales refer to individual insurance sales. In the U.S., group - health & protection sales consist of workplace benefits and Dental. In Asia, asset management gross flows & wealth sales, Philippines mutual fund sales, asset management gross flows & wealth sales by Group Benefits and Dental. In Asia, asset management gross flows & wealth sales, Philippines mutual fund sales, asset management gross flows & wealth sales by our India and China joint ventures and associates, and Aditya Birla Sun Life AMC Limited's equity and fixed income mutual fund sales, by our rubristidaries and joint ventures; individual - protection sales consist of the individual insurance sales, by our proportionate equity interest, including sales as reported by our pank distribution partners; individual - protection sales consist of the individual insurance sales, by our publication and joint ventures and associates, based on our proportionate equity interest, in the Philippines, Indonesia, India, China, Malaysia, Vietnam, International, Hong Kong and Singapore. Asia also has group - health & protection sales in the Philippines, and our joint ventures are Management net flows consist of gross flows less gross outflows; & wealth sales refers to gross flows less redemptions, maturities and withdrawals in Individual Wealth and Group Retirement Services business AUM. In Asia, asset management net flows & not include Glient distributions from the sales o

Additional Non-IFRS Financial Measures Glossary Continued

(20) Tangible book value per share. This measure is used to assess the value of our businesses, which is calculated as tangible common shareholders' equity divided by the number of common shares outstanding at the end of the period. Tangible common shareholders' equity excludes goodwill and acquired intangible assets and other adjustments, net of related deferred taxes for the period. Other adjustments include imputed goodwill & intangible assets of \$318 million from Asia joint ventures and \$(1.2) billion related to the future purchase of the remaining ownership interest in SLC Management affiliates.

(21) Third-party AUM. Third-party AUM is composed of retail, institutional and other third-party assets, which includes general fund and segregated fund assets managed by our joint ventures. In Asset Management, third-party AUM includes Client assets for retail and institutional Clients, as well as capital raising, such as uncalled commitments and fund leverage in SLC Management. There is no directly comparable IFRS measure. In Canada, third-party AUM includes Client assets in retail mutual fund products of SLGI Asset Management Inc. In the U.S., third-party AUM includes third-party investors in a pool of mortgage loans. In Asia, third-party AUM includes Client assets in Hong Kong managed fund products, International wealth products, the Philippines mutual and managed fund products, Aditya Birla Sun Life Asset Management Company Limited equity and fixed income mutual fund products, Sun Life Everbright Asset Management products and our joint ventures' general fund and segregated fund assets based on our proportionate equity interest.

(22) Total weighted premium income (TWPI). This measure consists of 100% renewal premiums, 100% of first year premiums, and 10% of single premiums. In contrast to sales, which only includes premiums from new business, TWPI includes renewal premiums, reflecting the strength of the in-force block and providing a better understanding of both new and existing business. There is no directly comparable IFRS measure.

(23) Underlying dividend payout ratio. This is the ratio of the dividends paid per share to diluted underlying EPS for the period. This ratio is utilized during the medium-term capital budgeting process to inform our planned capital initiatives. We target an underlying dividend payout ratio of between 40% to 50% based on underlying EPS. For more information, see section J - Capital and Liquidity Management of the Company's 2024 Annual MD&A.

The SLC Management Supplemental Income Statement enhances the comparability of SLC Management's results with publicly traded alternative asset managers. Additional metrics provided are considered non-IFRS financial measures. **Fee-related revenue** represents all fee income, with the exception of performance fees, generated from third-party investors. **Management fees** represent fund management fees from the third-party investors. **Distribution fees** represent third-party investors. **Distribution fees** represent third-party investors. **Sterious destination and and the set of the**

Reporting Refinements

Begining in Q1'25

Effective Q1'24, prior period amounts related to Opening balances for Retained Earnings and Accumulated Other Comprehensive income have been restated. For Additional information, refer to Note 2 in the Interim Consolidated Financial Statements for the period ended March 31, 2025.

Effective Q1'25, Regional Office in Asia was moved from the Corporate expense & other business type to the Individual - Protection business type. Prior period amounts reflect current presentation.

Effective Q1'25, the Wealth & asset management business type was renamed to Asset management & wealth.

For additional information about reporting refinements relating to 2024, refer to the 2024 Annual Supplementary Financial Information package. For additional information about changes in accounting policy, refer to Note 2 in the Interim Consolidated Financial Statements for the period ended March 31, 2025 and section L - Changes in Accounting Policy in the Q1'25 MD&A. UNDERSTANDING THE DOE

UNDERSTANDING THE DUE		
DOE	Description	Characteristics (1)
Risk adjustment release	Release of insurance risk margins into profit Risk adjustment release for Group – Health & Protection is presented in the 'Expected earnings on short-term (group) insurance business' line	Stable and predictable period to period and grows with underlying business Risk adjustment release is not impacted by quarterly changes in discount rates
CSM recognized for services provided	Earned profit for the period released from the CSM	Stable and predictable period to period and grows with underlying business CSM balance will mostly be impacted by new business, insurance experience and market movements for some contracts 8-10% of CSM balance recognized in shareholder net income annually
Expected earnings on short-term (group) insurance business	Group – Health & Protection profits recognized over a short coverage period Excludes Administrative Services Only ("ASO") business, presented in the 'Other fee income' line	Grows with in-force premiums, new sales and underwriting margins
Expected insurance earnings		
Impact of new insurance business	Represents 'onerous' new business for the period An onerous contract does not necessarily mean it is unprofitable business Onerous contracts do not account for the following sources of profitability • Risk adjustment • Full benefit for reinsurance • Asset returns in excess of discount rates	We do not expect a significant amount of onerous contracts ⁽²⁾
Experience gains (losses)	Reflects actual vs. expected claims and expense cash flows (not reserves) for the current period, plus The impact to future cash flows (reserves) that do not adjust the CSM (e.g., Group – Health & Protection businesses)	Mortality: Mostly Group and Individual – Protection experience. The majority of annuity experience (presented in Asset Management & wealth) changes future cash flows that adjust the CSM Mortidity: Reflects both Group - Health and Individual – Protection experience Lapse and policyholder behaviour; not significant as experience changes future cash flows that adjust the CSM Expenses; gain/loss related to maintenance expenses on insurance contracts
ACMA (Non-financial)	Impact of change in assumptions that do not adjust the CSM (e.g., Group – Health & Protection businesses)	Periodic, experience dependent Majority of ACMA are recorded annually in Q3
Total net insurance service result		

⁽¹⁾ May not include all factors that can impact this line.
 ⁽²⁾ Assuming stable macro-economic environment.

UNDERSTANDING THE DOE CONTINUED

DOE	Description	Characteristics ⁽¹⁾
Expected investment earnings	Reflects the spread between the expected investment return on general account assets and the discount rate (net of margins for credit risk) on insurance contract liabilities The weighted average expected return for non-fixed income assets is approximately 2% per quarter, including: 	Grows with underlying business; may experience modest volatility period to period from changes in interest rates and investment actions
Market-related impacts	Investment experience reflects variance between long-term expected returns and actual returns in the period Impact of period to period market fluctuations on assets and liabilities; expected to largely offset over the long-term Includes net equily and net fixed income impacts, impact of changes in the fair value of investment properties, and other market-related experience	See market risk sensitivities in the MD&A for details
Credit experience	Impact of ratings changes, and impairments (net of recoveries) on FVTPL assets Includes changes in expected credit loss provisions on FVOCI assets Expected credit is reflected in the 'Expected investment earnings' line	Impacted by macro-economic environment and business fundamentals
ACMA (Financial)	Primarily related to updates to economic assumptions for measuring liabilities (e.g., discount rates and cost of guarantees). Excludes pass through products where the CSM is sufficient Difference between changes in present value of future cash flows at locked-in and current rates for non-financial ACMA (for non-pass through products)	Periodic, experience dependent Majority of ACMA are recorded annually in Q3
Earnings on surplus	Core investment income on surplus assets (i.e. coupons, dividends) and realized gains/losses	Grows with surplus balance Core investment income will be impacted by yield/spread movement over time
Joint ventures & other	Joint venture earnings from India, Malaysia and China Other includes various smaller investment-related items that may arise from period to period	Grows with underlying business
Total net investment result		
Other fee income	Includes pre-tax earnings (net of expenses) for certain wealth businesses in Canada and Asia as well as Canada & U.S. fee-based businesses (e.g. ASO from Group Health & Protection) and fee income from Open par account in Canada	Level of earnings will trend with assets under management for Wealth and premiums for ASO
Expenses – other	Non-directly attributable contract expenses, corporate expenses, strategic initiatives and financing charges	
Asset management	Represents pre-tax earnings (net of expenses) for MFS and SLC Management	Level of earnings will trend with AUM / fee-earning assets under management
Income tax (expense) or recovery		
Dividends, distributions, NCI		
Common shareholders' net income (loss)		
⁽¹⁾ May not include all factors that can impact this line.
