## Basis of Presentation

All amounts in this document are presented in millions of Canadian dollars unless otherwise indicated. Sun Life Financial Inc., together with its subsidiaries and joint ventures, are collectively referred to as "the Company", "Sun Life", "we", "our" and "us". We prepare our unaudited Interim Consolidated Financial Statements using International Financial Reporting Standards ("IFRS"), the accounting requirements of the Office of the Superintendent of Financial Institutions ("OSFI") and in accordance with the International Accounting Standards ("IAS") 34 Interim Financial Reporting as issued and adopted by the International Accounting Standards Board ("IASB"). Reported net income (loss) refers to common shareholders' net income (loss) determined in accordance with IFRS.

This document and the Management's Discussion and Analysis ("MD&A") for the period ended March 31, 2026 ("Q1'26 MD&A") contain certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. Examples include:

(1) Within the Drivers of Earnings ("DOE"): i) Net investment result and Other expenses of the Sun Life Asset Management operating segment are combined with Fee Income to report the net contribution to earnings; ii) Income for fee-based businesses is reported net of the associated expenses; iii) Carried interest in SLC Management excludes the carried interest that Sun Life does not participate in economically, and nets the non-controlling interest ("NCI") against fee income and expenses of consolidated funds; iv) Net investment results include assets returns net of the crediting rate for investment contract liabilities and the unwinding of and changes in the discount rate for insurance contract liabilities; v) Earnings on surplus reflects net spread earned from investment strategies; and vi) Earnings attributable to the participating account are excluded.

(2) Within the Contractual Service Margin ("CSM") Movement Analysis: i) The impacts of insurance contracts issued is presented net of reinsurance; ii) Impact of new business is presented net of acquisition expense gain/loss; and iii) Certain methodology changes are presented as an impact of change in assumptions, whereas the Consolidated Financial Statement presentation is a contract modification.

For more information on the DOE and CSM Movement Analysis, refer to the Non-IFRS Financial Measures section on the subsequent page of this document or section N - Non-IFRS Financial Measures of the Company's Q1'26 MD&A. For the reconciliations of the Statements of Operations to the DOE, refer to the DOE Reconciliations section in the appendix of this document.

## Constant Currency Measures

Constant currency measures are calculated using the average currency and period end rates, as appropriate, in effect in the comparable period. Constant currency measures are non-IFRS financial measures. See section N - Non-IFRS Financial Measures, 3. Additional Non-IFRS Financial Measures of the Company's Q1'26 MD&A.

## Rounding

Amounts in this document may be impacted by rounding.

## Adjustments

### Acquisition, Integration and Restructuring

In Q1'26 amounts include DentaQuest acquisition, integration, and restructuring costs of \$13 million post-tax. Amounts also include a \$165 million post-tax charge from the acquisition of remaining equity interests in SLC Management affiliates BentallGreenOak ("BGO") and Crescent Capital Group LP ("Crescent").

In Q4'25 amounts include DentaQuest acquisition, integration, and restructuring costs of \$30 million post-tax and the unwinding of the discount for Other financial liabilities of \$15 million post-tax for BGO, Crescent and Advisors Asset Management Inc. ("AAM") (collectively, "SLC Management's affiliates<sup>(1)</sup>"). Amounts also include the changes in estimated future payments for options to purchase remaining ownership interests of SLC Management affiliates in the amount of \$4 million post-tax.

In Q3'25 amounts include DentaQuest acquisition, integration, and restructuring costs of \$13 million post-tax and the unwinding of the discount for Other financial liabilities of \$12 million post-tax for SLC Management's affiliates. Amounts also include a gain from increased ownership interest in Bowtie Life Insurance Company Limited ("Bowtie") of \$176 million post-tax. As a result of the transaction, our ownership interest in Bowtie, excluding dilution, increased by approximately 11%, to 55.8%.

In Q2'25 amounts include DentaQuest acquisition, integration, and restructuring costs of \$19 million post-tax and the unwinding of the discount for Other financial liabilities of \$15 million post-tax for SLC Management's affiliates.

<sup>(1)</sup> For the periods Q3'24 and prior, includes InfraRed Capital Partners ("InfraRed").

## Adjustments Continued

### Acquisition, Integration and Restructuring

In Q1'25 amounts include DentaQuest acquisition, integration, and restructuring costs of \$23 million post-tax and the unwinding of the discount for Other financial liabilities of \$14 million post-tax for SLC Management's affiliates.

In Q4'24 amounts include DentaQuest integration costs of \$11 million post-tax and the unwinding of the discount for Other financial liabilities of \$13 million post-tax for SLC Management's affiliates.

In Q3'24 amounts include DentaQuest integration costs of \$11 million post-tax and the unwinding of the discount for Other financial liabilities of \$19 million post-tax for SLC Management's affiliates. Amounts also include the changes in estimated future payments for options to purchase remaining ownership interests of SLC Management affiliates in the amount of \$334 million post-tax.

In Q2'24 amounts include DentaQuest integration costs of \$28 million post-tax and the unwinding of the discount for Other financial liabilities of \$22 million post-tax for SLC Management's affiliates. Amounts also include a restructuring charge of \$108 million reflecting actions taken to improve productivity and drive earnings growth at the higher-end of our Medium-Term Financial Objectives. We expect these actions to result in annual savings of approximately \$200 million (pre-tax) by 2026.

In Q1'24 amounts include DentaQuest integration costs of \$29 million post-tax and the unwinding of the discount for Other financial liabilities of \$22 million post-tax for SLC Management's affiliates. Amounts also include a gain from the partial sale of our ownership interest in Aditya Birla Sun Life AMC Limited ("ABSLAMC") of \$84 million post-tax. As a result of the transaction, our ownership interest in ABSLAMC was reduced from 36.5% to 30.2%.

### Other

Q1'26: Amounts include a \$145 million post-tax charge reflecting the proposed settlement of a legal matter in Canada.

Q4'25: Amounts include lower than expected tax-exempt investment income of \$49 million primarily in Corporate and a tax impact from changes to U.S. tax legislation in MFS<sup>(1)</sup>.

Q4'24: Amounts include lower tax exempt investment income of \$234 million in Corporate and a non-recurring provision in U.S. Dental.

Q2'24: Amounts include a tax adjustment related to Pillar Two legislation of \$15 million.

Q1'24: Amounts include a gain relating to the early termination of a distribution agreement in Sun Life Asset Management.

<sup>(1)</sup> MFS Investment Management ("MFS").

## Non-IFRS Financial Measures

Sun Life prepares annual and interim financial statements using IFRS. We report certain financial information that are not based on IFRS ("non-IFRS financial measures"), as we believe that these measures provide information that is useful to investors in understanding our performance and facilitate a comparison of our quarterly and full year results from period to period. These non-IFRS financial measures do not have any standardized meaning and may not be comparable with similar measures used by other companies. For certain non-IFRS financial measures, there are no directly comparable amounts under IFRS. These non-IFRS financial measures should not be viewed in isolation from or as alternatives to measures of financial performance determined in accordance with IFRS. Additional information concerning non-IFRS financial measures and, if applicable, reconciliations to the closest IFRS measures are available in the Company's annual and interim MD&A and the Supplementary Financial Information packages on [www.sunlife.com](http://www.sunlife.com) under Investors – Financial results and reports.

## Underlying Net Income

Underlying net income is a non-IFRS financial measure that assists in understanding Sun Life's business performance by making certain adjustments to IFRS income. Underlying net income, along with common shareholders' net income ("Reported net income"), is used as a basis for management planning, and is also a key measure in our employee incentive compensation programs. This measure reflects management's view of the underlying business performance of the Company and long-term earnings potential. For example, due to the longer term nature of our individual protection businesses, market movements related to interest rates, equity markets and investment properties can have a significant impact on Reported net income in the reporting period. However, these impacts are not necessarily realized, and may never be realized, if markets move in the opposite direction in subsequent periods or, in the case of interest rates, the fixed income investment is held to maturity.

Underlying net income removes the impact of the following items from reported net income:

- Market-related impacts reflecting the after-tax difference in actual versus expected market movements, including:
  - i. Net interest impact from risk-free rate, credit spread, swap spread movements, and other impacts, reflecting accounting mismatches between assets and liabilities:
    - a. Differences arising from fair value changes<sup>(1)</sup> of fixed income assets (including derivatives) measured at Fair value through profit or loss ("FVTPL") supporting insurance contracts, compared to fair value changes of the liabilities<sup>(2)</sup>;
    - b. Fair value changes of fixed income assets (including derivatives) measured at FVTPL supporting our investment contract liability and surplus portfolios<sup>(3)</sup>; and
    - c. Tax-exempt investment income<sup>(4)</sup> above or below expected long-term tax savings relating to our Canadian multi-national insurance operations.
  - ii. Non-fixed income investments, where the weighted average expected return is approximately 2% per quarter, including:
    - a. Equity investments (including derivatives) supporting insurance contracts and surplus portfolios; and
    - b. Investment properties supporting insurance contracts and surplus portfolios.
- Assumption changes and management actions ("ACMA") – captures the impact of method and assumption changes, and management actions on insurance and reinsurance contracts.
- Other adjustments:
  - i. MFS shares owned by management – this adjustment removes the change in fair value and other activity related to MFS common shares owned by management;
  - ii. Acquisition, integration, and restructuring - expenses and income related to the acquisition or disposal of a business, including restructuring activities, and integration-related management equity plan expenses in SLC Management;
  - iii. Intangible asset amortization - removes the amortization expense associated with finite life intangible assets arising from acquisitions or business combinations excluding amortization of software and distribution agreements; and
  - iv. Other – represents items that are unusual or exceptional in nature which management believes are not representative of the long-term performance of the Company.

Refer to Net Income Reconciliations - Pre-Tax and Post-Tax in the appendix of this document for the non-underlying adjustments from underlying net income to reported net income, as well as section N - Non-IFRS Financial Measures, 2. Underlying Net Income and Underlying EPS and 4. Reconciliations of Select Non-IFRS Financial Measures of the Company's Q1'26 MD&A.

<sup>(1)</sup> For fixed income assets, Underlying net income includes credit experience from rating changes on assets measured at FVTPL, and the Expected credit loss ("ECL") impact for assets measured at Fair value through other comprehensive income ("FVOCI").

<sup>(2)</sup> Underlying net income is based on observable discount curves and exchange rates at the beginning of the period.

<sup>(3)</sup> Underlying net income for earnings on surplus includes realized gains (losses) on fixed income assets classified as FVOCI.

<sup>(4)</sup> Q4'25 and Q4'24 balances are isolated in Other within Other adjustments.

## Non-IFRS Financial Measures Continued

### Underlying Diluted Earnings per Share ("EPS")

This measure is used in comparing the profitability across multiple periods and is calculated by dividing Underlying net income by weighted average common shares outstanding for diluted EPS, excluding the dilutive impact of convertible instruments. For additional information about the Underlying net income, see above. For additional information about the composition of the EPS, please refer to Note 14 of our Q1'26 Consolidated Financial Statements. For additional information about the Sun Life Exchangeable Capital Securities ("SLEECs"), please refer to Note 12 of our 2025 Annual Consolidated Financial Statements.

### Drivers of Earnings ("DOE")

The DOE analysis provides additional detail on the sources of earnings, primarily for protection and health businesses, and explains the actual results compared to the longer term expectations. The DOE is presented on a reported and underlying common shareholders' basis. Within the net insurance service result, the underlying DOE provides detail on expected insurance earnings, impact of new insurance business and experience gains (losses). Within the net investment result, the underlying DOE provides detail on expected investment earnings, credit experience, earnings on surplus, and joint ventures & other. For more information on the DOE, see the "Understanding DOE" document available in the Investor Relations section of our website at: <https://www.sunlife.com/en/investors/investor-briefcase/investor-education/> and section N - Non-IFRS Financial Measures, 3. Additional Non-IFRS Financial Measures under the heading Driver of Earnings of the Company's Q1'26 MD&A. Refer to the Basis of Presentation section on page ii of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements, and the reconciliations of the Statements of Operations to the DOE in the DOE Reconciliations section in the appendix of this document.

### Contractual Service Margin ("CSM")

CSM represents a source of stored value for future insurance profits and qualifies as available capital for LICAT<sup>(1)</sup> purposes. CSM is a component of insurance contract liabilities. Refer to the Basis of Presentation section on page ii of this document for more information about certain amounts that are presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements.

- Organic CSM Movement is comprised of the Impact of new insurance business, Expected movements from asset returns & locked-in rates, Insurance experience gains/losses, and CSM recognized for services provided.
- Impact of new insurance business on CSM, also referred to as "new business CSM", represents growth from sales activity in the period, including individual protection sales (excluding joint ventures), and defined benefit solutions and segregated fund wealth sales in Canada. New business CSM is presented net of acquisition expense gain/loss.
- Expected movements from asset returns & locked-in rates applies to variable fee approach ("VFA") and general measurement approach ("GMA") contracts. For VFA contracts, this component of the CSM movement analysis is comprised of two factors: (i) the expected return on underlying assets and (ii) the measurement of financial guarantees. The difference between actual and expected results are reported as the impact of markets. For GMA contracts, this component of the CSM includes the accretion of the CSM balance at locked-in rates, which refer to the term structure associated with locked-in discount rates, set when the insurance contract was sold or on transition to IFRS 17. Average locked-in rates increase with the passage of time on in-force business and new business added at current rates.
- Impact of markets & other includes the difference between actual and expected movement for VFA contracts for: (i) the return on underlying assets and (ii) the measurement of financial guarantees. Also includes other amounts excluded from Organic CSM Movement.
- Insurance experience gains/losses represents the current period impacts of insurance experience, resulting in a change in future cash flows that adjust CSM.
- Impact of change in assumptions represents the future period impacts of changes in fulfilment cash flows that adjust CSM.

<sup>(1)</sup> Life Insurance Capital Adequacy Test ("LICAT") ratio. Our LICAT ratios are calculated in accordance with the OSFI-mandated guideline, Life Insurance Capital Adequacy Test.

<sup>(1)</sup> Under IFRS 17, certain Operating expenses and Commission expense incurred in the period are included in Insurance service expenses, which are a component of Net insurance service results.

<sup>(2)</sup> Prior period amounts have been updated.

<sup>(3)</sup> Corporate includes consolidation adjustments for Operating expenses and Commission expense relating to activities that cross business groups.

<sup>(4)</sup> These amounts represent only non-underlying adjustments that pertain to operating expenses incurred in the period, and excludes non-underlying adjustments recognized outside of operating expenses, such as in investment results, the balance sheet, and NCI. For more information about non-underlying adjustments, refer to the Non-IFRS Financial Measures page 1 of this document and section N - Non-IFRS Financial Measures of the Company's Q1'26 MD&A.

<sup>(5)</sup> Q4'24 amounts include an impairment charge of \$186 million (post-tax) on an intangible asset related to bancassurance in Vietnam reflecting updates resulting from changes in regulatory and macro-economic factors.

<sup>(6)</sup> Q2'25 amounts include an impairment charge of \$61 million (post-tax) on a customer relationship intangible asset from the early termination of a U.S. group dental contract.

<sup>(7)</sup> Other primarily represents SLC Management carried interest that Sun Life does not participate in economically, which is presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. To align the two views, on this page, carried interest to which we have no economic interest is shown as "Other". Refer to the Basis of Presentation section on page ii of this document for more information.

<sup>(8)</sup> Q1'24 amount relates to the write down of intangible assets resulting from the early termination of a distribution agreement in Asset Management. The corresponding gain related to the termination of the agreement has been recorded on the same line of the financials to isolate from other activities.

<sup>(9)</sup> Q4'24 amount includes a non-recurring provision in U.S. Dental.

<sup>(10)</sup> Q1'26 includes a charge reflecting the proposed settlement of a legal matter in Canada.

<sup>(11)</sup> Other primarily represents interest on borrowed funds and credit facilities, interest on put option liabilities associated with SLC Management's affiliates and interest on liabilities connected to consolidated special purpose entities, interest on leases, interest on real estate encumbrances and interest on income taxes.

<sup>(1)</sup> Effective Q1'26, we report our Group Retirement Services business unit under "Group Wealth".

## Underlying net income by Business Types

Sun Life has a diversified mix of businesses and our earnings by business type supports the analysis of our results:

- **Asset management & wealth:** Sun Life's asset management & wealth businesses generate fee income and/or spread on investment products.
- **Group - Health & Protection:** Group businesses provide health and protection benefits to employer and government plan members. The products generally have shorter-term coverage periods, and more frequent repricing. The revenues are driven by premiums for coverage provided as well as fee-based earnings (i.e., Administrative Services Only plans, and dental fees).
- **Individual - Protection:** Generally, individual protection businesses have a longer-term profitability profile and are more sensitive to experience trends. The premiums include a margin for providing protection and are invested to earn a return over the expected amounts required to fulfill insurance liabilities.

The following provides an overview of the business types in Sun Life's business groups:

		Business Groups

<sup>(1)</sup> Includes Investment income (loss) and performance fees related to our seed investments and Market-related impacts. Market-related impacts are reported under Net investment income (loss) under IFRS, and are excluded on an underlying basis. Gains or losses of certain non-seed hedges are reported under Investment income or loss under IFRS, whereas we present these under Acquisition, integration and restructuring in SLC Management's Supplementary Income Statement. For more information about this adjustment made to arrive at a non-IFRS financial measure, refer to the Non-IFRS Financial Measures page 1 of this document and section N - Non-IFRS Financial Measures of the Company's Q1'26 MD&A.

<sup>(2)</sup> We have reclassified certain income and expense balances to provide more accurate metrics on our fee-related business.

<sup>(3)</sup> Crescent carried interest that Sun Life does not participate in economically is presented on a net basis to reflect how the business is managed, compared to a gross basis in the Consolidated Financial Statements. On a net basis, the NCI portion of the carried interest was netted against both Fee income of consolidated funds prior to Crescent buy-up in 2026. Effective January 1, 2026, the amount attributed to previous founders will be included as part of Expenses and netted against Fee income. Refer to the Basis of Presentation section on page ii of this document for more information.

<sup>(4)</sup> Non-underlying net income adjustments are shown pre-tax and before NCI in this reconciliation, compared to post-tax and post-NCI in SLC Management's Supplementary Income Statement. Other - expenses includes Intangible asset amortization and Other non-underlying adjustments.

<sup>(1)</sup> Represents the number of common shares treated as outstanding in the calculation of diluted EPS, based on the assumed conversion of the convertible securities. No adjustment is reflected for periods in which the convertible securities conversion would have caused an anti-dilutive result.

<sup>(2)</sup> The convertible securities contain features which enable the holders to convert these securities into preferred shares of Sun Life Assurance Company of Canada. Following this conversion, the Company has the option to settle the preferred shares with cash prior to the conversion to common shares of Sun Life. Under IFRS, diluted EPS are calculated by adjusting income and the weighted average number of shares for the effects of all dilutive potential common shares under the assumption that convertible instruments are converted and that outstanding options are exercised.

<sup>(3)</sup> Refer to the Notes page ii, Other Adjustments - Acquisition, Integration and Restructuring and Adjustments - other for additional details.

<sup>(4)</sup> Q4'24 amounts include an impairment charge of \$186 million on an intangible asset related to bancassurance in Vietnam reflecting updates resulting from changes in regulatory and macro-economic factors.

<sup>(5)</sup> Q2'25 amounts include an impairment charge of \$61 million on a customer relationship intangible asset from the early termination of a U.S group dental contract.

<sup>(6)</sup> Represents after-tax interest expense on convertible securities converted into common shares that is added to net income as the convertible securities are assumed to be converted at the beginning of each reporting period in the calculation of diluted EPS.

## DOE RECONCILIATION - TOTAL COMPANY

This page details the reconciling items (rows 12 to 22) between the Underlying DOE (rows 1 to 11) to the Adjusted Common Shareholders' View (also referred to as the Reported DOE, rows 1 to 12 on the following page). Refer to the following page for further details on the reconciling items and adjustments between the Reported DOE (rows 1 to 12 on the following page) and the Reported View - Income Statement (also referred to as the Statements of Operations in our Consolidated Financial Statements (rows 24 to 33 on the following page).

## Additional Non-IFRS Financial Measures Glossary

In addition to the non-IFRS financial measures described on page 1 of this document (Underlying net income, Underlying Diluted EPS, the DOE analysis, and the CSM Movement Analysis), Sun Life also uses the following non-IFRS financial measures:

- (1) After-tax profit margin for U.S. Group Benefits. This ratio expresses U.S. Group Benefits underlying net income as a percentage of net premiums. It assists in explaining our results from period to period and measures profitability. This ratio is calculated by dividing underlying net income by net premiums for the trailing four quarters. There is no directly comparable IFRS measure. Refer to U.S. Group Benefits Reported Net Income to Underlying Net Income section in the appendix of this document.
- (2) Assets under administration ("AUA"). AUA represents Client assets for which Sun Life provides administrative services. In Canada, AUA includes mutual fund dealers' assets in Individual Wealth and administrative services assets in Group Wealth. In Asia, AUA includes administrative services assets in China and Hong Kong. In SLC Management, AUA includes assets distributed mostly by SLC Management's affiliate, Advisors Asset Management Inc. There is no standardized financial measure under IFRS.
- (3) Assets under management ("AUM"). AUM is a non-IFRS financial measure that indicates the size of the Company's assets across asset management, wealth and insurance. There is no standardized financial measure under IFRS. In addition to the most directly comparable IFRS measures, which are the balance of General funds and Segregated funds on our Statements of Financial Position, AUM also includes Third-party and other AUM and Consolidation adjustments.
- (4) Assets under management and administration ("AUMA") consists of both AUA and AUM, as defined above, and there is no standardized financial measure under IFRS.
- (5) AUM not yet earning fees. This measure represents the committed uninvested capital portion of total AUM not currently earning management fees. The amount depends on the specific terms and conditions of each fund. There is no directly comparable IFRS measure.
- (6) Capital raising. This measure consists of increases in SLC Management's commitments from fund raising activities for all real estate, infrastructure and alternative credit Clients excluding leverage. Investment-grade fixed income capital raising consists of sales made to new Clients. There is no directly comparable IFRS measure.
- (7) Constant currency. We remove the impacts of foreign exchange translation from certain IFRS and non-IFRS financial measures to assist in comparing our results from period to period. The impacts of foreign exchange translation are approximated by using the foreign exchange rates in effect during the comparative period, using the average or period end foreign exchange rates, as appropriate. Constant currency reconciliation for Reported net income and Reported earnings per share - diluted are as follows:
- |                                                    |    |              |                                                            |    |        |
|----------------------------------------------------|----|--------------|------------------------------------------------------------|----|--------|
| Q1'26 Reported net income at Q1'25 constant dollar | \$ | 482 million  | Q1'26 Reported EPS at Q1'25 constant dollar                | \$ | 0.87   |
| Currency impact relative to Q1'25 exchange rates   | \$ | (17) million | Currency impact per share relative to Q1'25 exchange rates | \$ | (0.03) |
| Q4'25 Reported net income - actual                 | \$ | 465 million  | Q4'25 Reported EPS - actual                                | \$ | 0.84   |
- (8) Deployment. This measure represents the amount of capital that has been invested in the period, including leverage where applicable. Deployment also includes capital committed in infrastructure deals to be invested in specific assets. There is no directly comparable IFRS measure.
- (9) Dividend yield. This measure is calculated as the annualized dividend per share in the quarter over the daily average share price in the quarter. The annual dividend calculation represents the dividend paid in the year over the daily average share price for the year.
- (10) Fee earning AUM ("FE AUM"). FE AUM consists of assets managed by SLC Management, which are beneficially owned by Clients, on which we earn management fees for providing investment management, property management or advisory-related services. There is no directly comparable IFRS measure.
- (11) Financial Leverage ratio. This ratio is an indicator of the Company's balance sheet strength measured by its proportion of capital qualifying debt in accordance with OSFI guidelines. This is calculated as the ratio of total debt plus preferred shares and other equity instruments to total capital including the contractual service margin net of taxes, where debt consists of all capital-qualifying debt securities. Capital-qualifying debt securities consist of subordinated debt and innovative capital instruments. The CSM is included net of taxes because debts are repaid and serviced from available after-tax funds.

## Additional Non-IFRS Financial Measures Glossary Continued

(12) Impacts of foreign exchange translation. To assist in comparing our results from period-to-period, the favourable or unfavourable impacts of foreign exchange translation are approximated using the foreign exchange rates, in effect during the comparative period, for several IFRS and Non-IFRS financial measures using the average or period end foreign exchange rates, as appropriate. Items impacting a reporting period, such as Total revenue, Expenses, and Reported net income (loss) in our Consolidated Statements of Operations, as well as Underlying net income (loss), and Sales, are translated into Canadian dollars using average exchange rates for the appropriate daily, monthly, or quarterly period. For Assets and Liabilities in our Consolidated Statements of Financial Position, as well as the AUM, and certain components of the DOE disclosure, period-end rates are used for currency translation purposes.

(13) Loss Ratio for Dental - Medicaid. This ratio expresses Dental Medicaid claims (a component of "insurance service expenses") as a percentage of net premiums. It assists in explaining our results from period to period and measures profitability. This ratio is calculated by dividing Dental Medicaid claims by net premiums for the period. There is no directly comparable IFRS measure.

(14) Net Premiums. This measure provides a better understanding of the growth in the group businesses in Canada and the U.S. Net premiums include gross insurance and annuity premiums adjusted for unearned premiums, experience-rated refund premiums, premium taxes and associated ceded amounts.

(15) Pre-tax fee-related earnings margin. This ratio is a measure of SLC Management's profitability in relation to funds that earn recurring fee revenues, while excluding investment income and performance fees. The ratio is calculated by dividing fee-related earnings by fee-related revenues and is based on the last twelve months. There is no directly comparable IFRS measure.

(16) Pre-tax net operating margin. This ratio is a measure of profitability and there is no directly comparable IFRS measure. For MFS, this ratio is calculated by excluding MFS shares owned by management, compensation-related equity plan adjustments and certain commission expenses that are offsetting. These commission expenses are excluded in order to neutralize the impact these items have on the pre-tax net operating margin and have no impact on the profitability of MFS. For SLC Management, the ratio is calculated by dividing the total operating income by fee-related revenue plus investment income (loss) and performance fees, and is based on the last twelve months.

(17) Pre-tax gross operating margin for MFS. This ratio is a measure of profitability, which excludes MFS shares owned by management and compensation-related equity plan adjustments. There is no directly comparable IFRS measure.

(18) Reported Dividend payout ratio. This is the ratio of dividends paid per share to diluted reported EPS for the period.

(19) Return on Equity ("ROE"). IFRS does not prescribe the calculation of ROE and therefore a comparable measure under IFRS is not available. To determine reported ROE and underlying ROE, respectively, reported net income (loss) and underlying net income (loss) is divided by the total weighted average common shareholders' equity for the period. The ROE provides an indication of the overall profitability of the Company. The quarterly ROE is annualized.

(20) Sales and flows. Sun Life Asset Management gross flows includes funds from retail and institutional Clients; SLC Management gross flows include capital raising, such as uncalled capital commitments and fund leverage; Solutions & Other gross flows include defined benefit solutions sales, Asia asset management managed fund flows as well as Aditya Birla Sun Life Asset Management Company Limited mutual fund flows based on our proportionate equity interest. In Canada, asset management gross flows & wealth sales consist of sales in Group Wealth (excluding retained sales) and Individual Wealth; insurance sales consist of group insurance sales from workplace benefits sold by Sun Life Health and sales from Individual Insurance. In the U.S., group insurance sales consist of sales by Group Benefits and Dental. In Asia, asset management gross flows & wealth sales consist of Hong Kong asset management gross flows & wealth sales, Philippines mutual and managed fund sales, wealth sales by our China joint venture, including sales as reported by our bank distribution partners; individual insurance sales consist of sales by our subsidiaries and joint ventures and associates, based on our proportionate equity interest, in the Philippines, Indonesia, India, China, Malaysia, Vietnam, Hong Kong and High Net Worth. Asia also has group insurance sales in the Philippines, Hong Kong and our joint ventures. Sun Life Asset Management net flows consist of gross flows less gross outflows; SLC Management's net flows do not include Client distributions from the sale of underlying assets in closed-end funds; Solutions & Other outflows consist of redemptions and annuity payments. In Canada, net asset management net flows & wealth sales refers to gross flows less redemptions, maturities and withdrawals in Individual Wealth and Group Wealth business AUM. In Asia, asset management net flows & net wealth sales include Hong Kong net wealth sales, the Philippines mutual and managed fund net flows, and China individual wealth net sales, based on our proportionate equity interest. There is no directly comparable IFRS measure.

## Additional Non-IFRS Financial Measures Glossary Continued

(21) Sun Life Asset Management managed assets. This measure consists of (i) Sun Life Asset Management ("SLAM") AUM, which is retail and institutional Client assets where SLAM is the asset manager, as well as general fund assets of SLAM's business units; and (ii) Internally managed assets that are general fund invested assets of other Sun Life business groups managed by SLAM. Third party and segregated fund assets reported by Canada and Asia for which SLAM is the asset manager are reported as "SLAM AUM" rather than "Internally managed assets" to distinguish where a Client is the asset owner rather than Sun Life.

(22) Sun Life wealth and other AUM. This measure includes third party AUM and segregated fund assets held in Canada, U.S., and Asia, net of assets where Sun Life Asset Management is the asset manager. Joint venture and other general fund assets that are not managed by Sun Life Asset Management are also included. In Canada, these assets are primarily reported in Group Wealth and Individual Wealth, including SLGI Asset Management. In the U.S., these assets are primarily reported in In-force Management. In Asia, these assets are primarily reported by the wealth and asset management businesses in Hong Kong, the Philippines, China, and International. Segregated fund assets in ASEAN, Hong Kong, and High Net Worth are also included.

(23) Tangible book value per share. This measure is used to assess the value of our businesses, which is calculated as tangible common shareholders' equity divided by the number of common shares outstanding at the end of the period. Tangible common shareholders' equity excludes goodwill and acquired intangible assets, net of non-controlling interest portion and other adjustments, net of related deferred taxes for the period. Other adjustments for Q1'26 include imputed goodwill & intangible assets of \$0.3 billion from Asia joint ventures.

(24) Third-party and other AUM. Third-party and other AUM is composed of retail, institutional and other third-party assets, which includes general fund and segregated fund assets managed by our joint ventures. There is no directly comparable IFRS measure. In Sun Life Asset Management, third-party and other AUM includes Client assets for retail and institutional Clients, as well as capital raising, such as uncalled commitments and fund leverage in SLC Management; the AUM for Aditya Birla Sun Life Asset Management Company Limited is based on our proportionate equity interest. In Canada, third-party and other AUM includes Client assets in retail mutual fund products of SLGI Asset Management Inc. In the U.S., third-party and other AUM includes third-party investors in a pool of mortgage loans. In Asia, third-party and other AUM includes Client assets in Hong Kong managed fund products, International wealth products, the Philippines mutual and managed fund products, Sun Life Everbright Asset Management products and our joint ventures' general fund and segregated fund assets based on our proportionate equity interest.

(25) Total weighted premium income ("TWPI"). This measure consists of 100% renewal premiums, 100% of first year premiums, and 10% of single premiums. In contrast to sales, which only includes premiums from new business, TWPI includes renewal premiums, reflecting the strength of the in-force block and providing a better understanding of both new and existing business. There is no directly comparable IFRS measure.

(26) Underlying dividend payout ratio. This is the ratio of the dividends paid per share to diluted underlying EPS for the period. This ratio is utilized during the medium-term capital budgeting process to inform our planned capital initiatives. We target an underlying dividend payout ratio of between 40% to 50% based on underlying EPS. For more information, see section J - Capital and Liquidity Management of the Company's 2025 Annual MD&A.

The SLC Management Supplemental Income Statement enhances the comparability of SLC Management's results with publicly traded alternative asset managers. Additional metrics provided are considered non-IFRS financial measures. **Fee-related revenue** represents all fee income, with the exception of performance fees, generated from third-party investors. **Management fees** represent fund management fees from the third-party investors. **Distribution fees** represent third-party income earned from Advisors Asset Management Inc.'s distribution business, based on assets under administration. **Property management, transaction, advisory and other fees** represent other fee revenues which exclude management fees and performance fees, generated from third-party investors. **Fee-related expenses** represent all expenses directly related to generating fee revenue from third-party investors. **Compensation - fee-related** represents compensation expense directly related to generating fee revenue from third-party investors, which excludes equity-based compensation. **Other operating expenses** represent operating expenses other than compensation that is directly related to generating fee revenue from third-party investors. **Fee-related earnings** represent profitability of our fee-related portfolios, and is calculated as Fee-related revenue less Fee-related expenses. **Investment income (loss) and performance fees** represent total income or loss from our seed investments, net of the related expenses, Advisors Asset Management's capital markets business, which is based on actively traded assets, and performance fees. **Interest and other** represents performance fee compensation, our net interest income or expense and income from managing the General Account assets. **Operating income** represents profit realized from our business operations, and is calculated as the sum of Fee-related earnings, Investment income (loss) and performance fees, and Interest and other. **Placement fees - other** represent costs incurred for capital raising activities that are not related to the current period.

## Reporting Refinements

### Beginning in Q1'26

Prior period amounts have been restated to reflect the implementation of the Sun Life Asset Management structure, effective January 1, 2026, and other refinements to enhance the understanding of our financial results. For additional information about reporting refinements relating to our financial supplement for the first quarter of 2026, refer to the document "Key Changes to Financial Supplement for the First Quarter 2026" available in the Investor Relations section of our website at: <https://www.sunlife.com/en/investors/investor-briefcase/investor-education/>.

For additional information about reporting refinements relating to 2025, refer to the 2025 Annual Supplementary Financial Information package.

For additional information about changes in accounting policy, refer to Note 2 in our Interim Consolidated Financial Statements for the period ended March 31, 2026 and section L - Changes in Accounting Policy of the Company's Q1'26 MD&A.
